PRODUCT DESCRIPTION

Designer: [GIBILLERO Design](#)

MARILYN ECO was developed thinking about the environment, recycle and minimization of production processes. Just in a word: sustainability. The structure of the bench is made of galvanized steel without any further coating process. Seat and back are made of a series of profiles PVC foam and wood flour. A recycled material, 100% recyclable, flame retardant and resistant to corrosion caused by external agents, "Plastica Seconda Vita" certified.

This bench, designed for open spaces and private gardens, is characterized by a remarkable lightness of composition, the elements that compose it, draw lines sensitive and essential. MARILYN ECO is also available as single bench and as seat.
