

BENCHES: PETALO

| Categories: [BENCHES](#), [URBAN SMART LIVING](#), [URBAN SMART LIVING](#)

PRODUCT DESCRIPTION

Designer: [GIBILLERO Design](#)

The inspiration for this particular bench is the petal of a flower gently folded back on itself, and the effect has been obtained thanks to the innovative manipulation of the steel.

Petalo is composed of two elements:

- A steel petal-shaped plate, laser cut and bent, the wide part of the petal being the seat and the narrow part the base.
- A central steel core that supports and accompanies the petal shape throughout.

Its light and organic shape teamed with the fact that it comes in many colors renders Petalo very versatile.

Dimensioni massime:

1375x386/652x450 mm
Seat height 450 mm

Materials: [stainless steel](#)
