

BOLLARDS: FRED

| Categories: [BOLLARDS / BARRIERS](#), [URBAN SMART LIVING](#), [URBAN SMART LIVING](#)

PRODUCT DESCRIPTION

Designer: [GIBILLERO Design](#)

Fred is a bollard. It has a simple and linear form, typical for urban design: the cylinder. The bollard can also have LED lights - creating different light effects - and it can be used also as bike rack because of the opening like an inverted "V".

Overall dimension:

diameter 115 mm - height 905 mm

Materials: [steel](#)
