BOLLARDS: FRED

| Categories: BOLLARDS / BARRIERS, URBAN SMART LIVING, URBAN SMART LIVING

PRODUCT DESCRIPTION

Designer: **GIBILLERO Design**

Fred is a bollard. It has a simple and linear form, typical for urban design: the cylinder.

The bollard can also have LED lights – creating different light effects - and it can be used also as bike rack because of the opening like an inverted "V".

Overall dimension:

diameter 115 mm - height 905 mm

Materials: steel
