

LITTER BINS: JAKE & ELWOOD

| Categories: [LITTER BINS](#), [URBAN SMART LIVING](#), [URBAN SMART LIVING](#)

PRODUCT DESCRIPTION

Designer: [GIBILLERO Design](#)

JAKE and ELWOOD are two baskets, square one, the other circular, for waste collection.

Starting from two classical forms, the design of baskets is revealed in their details by reading bending that divide the shape the 4 sectors, anchored to transverse profiles grey steel.

Transverse structural profiles also serve as ground anchor and, coming on top of the trash, bring the cover made of shaped steel laser.

Inside the trash is an additional port container lot made of galvanized press-folded.

JAKE: 480 x 480 x h 805 mm
load: 90 lt

ELWOOD: diam. 480 x h 805 mm
load: 70 lt

Materials: [stainless steel](#)
