

PLANTERS: S PLANTER

| Categories: [PLANTERS](#), [URBAN DESIGN](#)

PRODUCT DESCRIPTION

Designer: [Veronica Martinez](#)

fiber-reinforced material made in polyester resin and marble powders, particularly resistant to wear and atmospheric agents. Hypergranite is available in many different colours. The tray for the potting soil of the S Planter is made through bending and continuous welding of a steel sheet with 15/10 thickness. On the bottom there are 2 holes 12 mm diam. for the water drain. On demand, the holes can be plugged or drain pipes (40 mm long) can be inserted.

Steel EN10111DD11 is used for the realization of this product made in Italy and all the elements in this material, after all the different stages (cutting, bending, welding), are treated with electrogalvanizing according to the UNI regulations and are later polyester powder-coated with RAL colours at choice.

Max dimensions:

Planter capacity: **23 lt**
Weight of steel: **8,5 kg**

Optional:

- drain pipe h. 40 mm
- bottom without holes

Materials: [Hypergranite](#), [steel](#)
Available also in the **UHPC** version.
